PRESS RELEASE

AIAI Appoints Board of Directors
Industry leaders chosen to lead P3 Organization

New York, NY, February 2013 – The following individuals have been appointed as members of the Board of Directors of the Association for the Improvement of American Infrastructure (“AIAI”):

William A. Marino, Star America
Sal Mancini, Star America
Richard A. Fierce, Fluor
John McArthur, Kiewit Development Company
Mike McNally, Skanska
Nicolas Rubio, Cintra US
Juan Santamaria, ACS Infrastructure Development

Representing some of the leading firms in the Infrastructure arena, the founding member companies identified above have been involved in many of the major P3’s initiatives in the US and abroad. The broad knowledge and vast experiences of these companies and their representatives have brought the member companies to the conclusion that the P3 market is now sufficiently mature and robust to justify its own, full-time organization dedicated to advocating, educating and, when necessary, promoting P3s to advance the cause of job creation through innovative finance of new infrastructure across diverse market sectors.

The goal of AIAI is to create an environment where public and private entities work together to promote growth and sustainability of America’s Infrastructure, fostering innovative solutions in the forms of policy, product and delivery.

AIAI has identified several initiatives and will look to create a positive impact in the following areas:

New P3 Legislation
Facilitative Implementation for Government Agencies
Creative Tax Solutions
Institutionalized Processes
Informed Decision Making

--END--

About the Association for the Improvement of American Infrastructure

The Association for the Improvement of American Infrastructure (AIAI) is a non-profit organization formed in the District of Columbia to help shape the direction of the national Public Private Partnership marketplace. AIAI will serve as a national proponent to facilitate education and legislation through targeted advocacy.

AIAI’s Board is comprised of leaders of the construction and development industry. Their extensive national and international experience and industry knowledge provides AIAI with a clear direction for developing and advocating policy and legislative solutions, allowing more equitable and effective partnerships across diverse market sectors from transportation and energy to educational, health and public service institutions.
