

Association for the Improvement  
of American Infrastructure

## 2019 Association Activities

### OVERVIEW

AIAI serves as a resource for industry leaders, legislators and other key decision makers as they consider P3 as an alternative solution to address our Nation's infrastructure crisis.

AIAI provides members with the tools they need to successfully negotiate the P3 landscape. From member event participation to AIAI's groundbreaking **Best Practices Guide**, our team is committed to providing the resources and the knowledge you need to understand P3s.

Our mission is to create an environment where public and private entities can work together to promote growth and sustainability of America's Infrastructure, fostering innovative solutions in the form of policy, product and delivery. Our members come from a range of diverse backgrounds including construction, engineering, architecture, insurance, investment, education and transportation. They are employees of large and boutique firms; professionals on traditional, entrepreneurial, public service or hybrid career paths.

*Our members share a passion for American infrastructure, a conviction that it matters, and a commitment to improving lives through P3 partnerships.*
