AIAI members offer a broad range of knowledge and information in areas such as financing, construction, operations and maintenance, program implementation and best practices. Our thought leaders represent virtually every P3 that has taken place in the United States and offer practical experience from around the globe.

Our experts have been involved in drafting legislative language and implementing successful programs. When it comes to their areas of expertise each member of our group is a leader in their chosen field, a seasoned and experienced practitioner and committed to the growth and development of infrastructure and the idea of private investment in these assets. AIAI members have aligned themselves with industry colleagues and provide education and information to promote best practices in the P3 model. AIAI professionals are pleased to share their wisdom and candid commentary for the benefit of the industry and as a means to achieve global competitiveness, long-term economic growth and stability in the United States through job creation and a robust pipeline of infrastructure projects.

On behalf of AIAI, we are delighted to offer you the collective expertise of our members, our thought leaders, and our commitment to work to ensure we provide you with in depth knowledge based on practical experience. We look forward to working together, to move P3s forward.

AIAI is an action-driven, member-led organization made up of the leading minds in the industry, solely dedicated to moving P3s forward and strengthening American infrastructure.
